SUMMARY

Junior Full Stack Developer skilled in modern frontend and backend technologies including **HTML**, **CSS**, **JavaScript**, **React**, **Node.js**, **Python**, **Django**, and **Flask**. Also experienced in **ASP.NET**, **C#**, and **SQL Server** for building web and desktop applications. Passionate about clean, scalable code and turning ideas into practical digital solutions through WordPress and custom projects.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, HTML, CSS, SQL, C#
- **Libraries/Frameworks:**
 - **Frontend:** React.js, Next.js, Bootstrap, jQuery
 - **Backend:** NestJS, Node.js, Django, ASP.NET
- **Databases:** MongoDB, SQL Server, MySQL, Oracle
- **APIs & Protocols:** REST APIs, WebSockets, HTTP
- **Tools:** Git, GitHub, Docker, Visual Studio, WordPress, Oracle Forms, Photoshop
- **Other:** Async/Await, CI/CD fundamentals, Redis (basic), Stripe (basic), Responsive Design, Version Control

TECHNICAL PROJECTS

My Portfolio Website | *Full-Stack Developer* | [Live Site](#)

- Developed the frontend using HTML, CSS, and JavaScript, ensuring consistency and accessibility across devices and screen sizes.
- Implemented dynamic sections (About Me, Skills, Contact) to improve interactivity and user engagement.
- Configured backend structure by integrating version control with Git/GitHub and deploying the site using GitHub Pages.
- Applied clean code principles, intuitive UX design, and real-world functionality to reflect high professional standards.
- Demonstrated full-stack development skills by handling both frontend design and backend deployment aspects of the project.

3A Tekstil Company Website | *WordPress Developer* | [live Site](#)

- Designed and developed a dynamic company website for a textile business using **WordPress**, focusing on brand identity, clarity, and user experience.
- Customized a professional theme and configured core pages such as *Home*, *Products*, *About*, and *Contact* with mobile responsiveness.
- Integrated multilingual support to serve both Arabic and Turkish-speaking customers, improving accessibility and audience reach.
- Implemented SEO-friendly structure and optimized loading speed to support better search engine visibility.
- Emphasized clean layout, brand alignment, and real-world business needs to deliver a practical and polished online presence.

Doctor Academy – E-Learning Platform | WordPress Developer | [live Site](#)

- Developed a medical e-learning platform by combining system analysis, custom data structures, and WordPress development to support complex user interactions.
- Conducted system design to define user roles (admin, instructor, student), course flows, and permission hierarchies.
- Structured course data and user progress tracking using custom post types and metadata, simulating database-like behavior within WordPress.
- Extended LMS functionality with custom PHP scripts and plugin configuration for quizzes, student dashboards, and secure payment systems (Stripe, PayPal).
- Delivered a scalable platform integrating UI/UX design, multilingual support, and backend optimizations for high performance and accessibility

EDUCATION

Full Stack Developer Bootcamp, Axsos Academy, Palestine 2025

A part-time immersive training program in web fundamentals, Python, algorithms, and data structures. The Bootcamp includes 20 weeks of programming as the following: +660 coding hours in total, 50 hours pre-boot camp.

120 hrs web fundamentals. 240 hrs Python, 60 hours of algorithms and data structures, 60 hours of 2 complete projects (Solo & Group). All stacks include group activities and leet-code and Hacker Rank.

Al-Quds Open University | Bachelor's Degree in Computer Information Systems | Gaza, Palestine 2015-2018

- **Relevant Coursework:** Database Systems, Web Development, System Analysis, Networking, Software Engineering, Information Security

PROFESSIONAL EXPERIENCE
